

Chloride Field Test System

Code: 35-2167

Product Group: Chloride Field Test System

Specification

Meter

Battery powered, high impedance electronic meter with temperature compensation circuits and microprocessor for direct conversion to percent of chloride.

Electrode

Chloride combination type with externally mounted temperature sensor, cable and connectors.

Components

12 jars (20 ml each) of extraction liquid, 5 jars of colored calibration liquid, 1 jar of wetting agent, spray bottle, collection pan and blower, clamping pliers, drill bit and anchors, scales and carrying case.

Weight

Net 10 lbs. (5 kg).
