

## Video Extensometer

Code: 0000

Product Group: N/A

- Automatic video "pattern" sensing for easy and quick measurements
- Auto light feature (light activates when in test mode)
- Auto calculation for strain, displacement etc.
- Motions measureable: Axial, Transversal, Omnidirectional, "Any" etc.
- Measurement stand available
- Built in test video recording for playback

## Specification

Camera	5Mpx (7s fps)
Light	Blue LED light with auto switch feature
Software	For real time measurements and video recording
Analog/digital	AD/DA card, 16-bit USB
Analog output	+/- 10V for UTM
Field of vision	Can be adjusted to preference (>275 mm recommended)
Resolution	1µm @ 275 Field of view
Calibration	Automatic calibration card
