

Laboratory Ion meter with pH electrode, swing arm, temp probe. Manual+buffer capsules. 240V 50Hz 1ph

Code: 525-220/01

Product Group: General laboratory instrumentation

Accessories

Ammonia Ion Selective Electrode (Combination Type)

Code: 488-001

Ammonium Ion Selective Electrode (PVC) Combination Type

Code: 488-021

Barium Ion Selective Electrode (Combination Type)

Code: 488-002

www.ele.com +44 (0)1525 249 200

= +1 (800) 323 1242

Bromide Ion Selective electrode (Combination Type)

Code: 488-003

Cadmium Ion Selective electrode (Combination Type)

Code: 488-004

Calcium Ion Selective electrode (Combination Type)

Code: 488-005

Chloride Ion Selective electrode (Combination Type)

Code: 488-007

Copper Ion Selective electrode (Combination type)

Code: 488-008

= +1 (800) 323 1242

Cyanide Ion Selective electrode (Combination type)

Code: 488-009

Fluoride Ion Selective electrode (Combination type)

Code: 488-010

lodide Ion Selective electrode

Code: 488-011

Lead Ion Selective eletrode (Combination Type)

Code: 488-012

Nitrate Ion Selective Electrode (Combination Type)

Code: 488-013

www.ele.com +44 (0)1525 249 200

Potassium Ion Selective electrode

Code: 488-014

Silver Ion Selective electrode (Combination Type)

Code: 488-015

Sodium Ion Selective electrode (Combination Type)

Code: 488-016

Sulphide Ion Selective electrode (Combination Type)

Code: 488-017

Water Hardness Ion Selective electrode (Combination Type)

Code: 488-019
