

## Micro Deval Machine + Safety Cabinet, Sound Proof- Full Set

Code: [XP2100X0015](#)

Product Group: [N/A](#)

Used to determine the resistance of aggregates by abrasion. The machine essentially comprises a heavy steel frame on which the following stainless steel cylinders can be mounted:

4 cylinders dia 200x154mm, or

2 cylinders dia 200x400mm, or

2 cylinders dia 200x154 and 1 dia 200x400mm with security cabinet, manufactured from sheet steel, lined with sound-proofing material for noise reduction, conforming to CE safety directive

When opening the cabinet's door during micro-deval working, a micro switch automatically stops the rotation of the cylinders.

Spheres, stainless steel, dia 10mm (20kg pack)

Cylinder, standard, stainless steel, 200mm dia x 154 mm length (4 pieces included)

Dimensions: 1150x600x1150mm

Weight: 190kg
