

## ASPHALT DUCTILOMETER WITH DATA ACQUISITION 3 SAMPLES

Code: [SPL00092](#)

Product Group: [N/A](#)

Ductilometer with data acquisition

- Variable speed range from 1 to 400 mm/min with digital displacement measuring system.
- Up to 3 samples can be tested simultaneously.
- Single, high capacity load cell 500 N (its is possible to install more at a later stage.
- Automatic positioning test start
- Visualisation of the elongation in mm
- Visualisation of the load/elongation
- Max elongation before sample failure

Temperature setting and visualization of the test execution with continuous recording during the test

- Test certificate print-out (USB connector or local printer)
- Glass upper cover.

Supplied WITHOUT briquette mould and base

Power supply: 230V 1ph 50Hz 1000W

Dimensions: 2140x400x450mm
