

DS7.1 One-Dimensional Consolidation Program for Windows 7, 32/64 bit

Code: [27-1772](#)

Product Group: [N/A](#)

DS7.1 Consolidation Software provides all basic functions needed to record and analyse consolidation test data. Options are available for monitoring settlement on a log time or square-root time basis. Printouts and graphical plots are available for all stages including M_v and C_v moisture content, voids ratio plots, and initial sample conditions.
