

## Automatic Marshall Compactor for 4" Moulds

Code: 45-6620

Product Group: N/A

- 1) Equipped with safety guard, conforming to CE safety directive
- 2) When opening the guard during Compactor working, a microswitch automatically stops the unit
- 3) Has been designed to eliminate the laborious process of hand compaction.
- 4) Automatically compacts the specimen and stops off the motor after the preset number of strokes has been completed on the automatic digital display counter
- 5) The trip mechanism is structured so that the hammer falls at the same height at every stroke.
- 6) The unit incorporates a compaction wooden pedestal
- 7) The drive mechanism lifts the 453 kg compaction hammer, plated against corrosion, to the height of 457 mm and allows free fall at 60 blows per minute
- 8) Complies to ASTM D1559, 6926 and AASHTO T245
- 9) Power supply : 230V 1ph 50Hz 300W
- 10) Weight 95kg
