

Paqualab Test Meters

Spare pH electrode for use with 430-020 meter

Code: [430-020/10](#)

Attributes: [Description](#) = Spare pH electrode for use with 430-020 meter

Standards:

Digital pH/Temp/mV Meter with electrode, carrying case and pH 4 & 7 buffers

Code: [430-020](#)

Attributes: [Description](#) = Digital Ph/Temp/Mv Meter

Standards:

Turbidity Tube

Code: [430-250](#)

Attributes:

Standards:

Turbidity Meter. Range 0-1000 FTU. Supplied with Carrying Case, Batteries and Calibration Solutions

Code: [430-260](#)

Attributes: [Description](#) = Turbidity Meter

Standards:

Paqualab photometer

Code: [430-550](#)

Attributes: [Description](#) = Photometer

Standards:

Conductivity/Temp/TDS Meter with Electrode and Carrying Case

Code: [513-160](#)

Attributes: [Description = Conductivity/Temp/TDS Meter](#)

Standards:

Dissolved Oxygen / Temp Meter. with Electrode and Carrying Case

Code: [521-050](#)

Attributes: [Description = Dissolved Oxygen/Temp Meter](#)

Standards:

Standard Colour Comparator Kit In Carrying Case. Supplied Without Colour Disks and Reagents.

Code: [432-020](#)

Attributes: [Description = Comparator Kit](#)

Standards:

Water Test Kit. Includes Tests for Ph Chloride Total Hardness and Iron.

Code: [521-080](#)

Attributes: [Description = Water Test Kit](#)

Standards:
