

## Unconfined Compression Tester, Hand-Operated

---

### Unconfined Compression Platens. for Use on Ele Load Frames Max Sample Dia 95mm.

Code: 25-3650

Attributes: Description = Unconfined Compression Platens, Strain Indicator = Metric: 25 mm range x 0.01 mm graduations.

Standards: ASTM D2166, AASHTO T208, BS 1377, BS 1924, EN 13286-47, ASTM D1883, AASHTO T193

---

### Unconfined Compression Tester, Hand-Operated

Code: 25-3602

Attributes: Description = Unconfined Compression Tester, Hand-Operated 500 lb, Cross Head = High-strength aluminum.

Standards: ASTM D2166, AASHTO T208

---

### Unconfined Compression Tester, Hand-Operated

Code: 25-3605

Attributes: Description = Unconfined Compression Tester, Hand-Operated 6.6 kN, Cross Head = High-strength aluminum.

Standards: ASTM D2166, AASHTO T208

---

### Unconfined Compression Tester, Hand-Operated

Code: 25-3604

Attributes: Description = Unconfined Compression Tester, Hand-Operated 1,500 lb, Cross Head = High-strength aluminum.

Standards: ASTM D2166, AASHTO T208

---
