Hand Auger Set 7m.

Hand Auger Set 7m.

Code: [510-128](#)

Product Group: [Augers](#)

Suitable for augering to depths of 7 meters. Designed for exploratory soil augering and sampling, inserting monitoring well pipes for groundwater level measurements and for sampling. Compact and easy for one person to use in the field. Various types of soil augers to reach the groundwater level, augers for the extraction of less-disturbed soil samples, extension rods, synthetic casing tubes with steel screw thread sockets, tube clamps with adjustable quick fastener for driving in and withdrawing the casing tubes, bailers with steel and synthetic valves, casing tube platforms for more ergonomic work, spare parts and various accessories. The set is delivered in two aluminium transport cases.
