

Chloride Field Test System

Code: 35-2167

Product Group: Chloride Field Test System

Specification

Meter	Battery powered, high impedance electronic meter with temperature compensation circuits and microprocessor for direct conversion to percent of chloride.
Electrode	Chloride combination type with externally mounted temperature sensor, cable and connectors.
Components	12 jars (20 ml each) of extraction liquid, 5 jars of colored calibration liquid, 1 jar of wetting agent, spray bottle, collection pan and blower, clamping pliers, drill bit and anchors, scales and carrying case.
Weight	Net 10 lbs. (5 kg).
