

Compaction Mould Holder

Code: [45-6414](#)

Product Group: [Compaction Mould Holder](#),
[Compaction Pedestal](#)

Made from heavy aluminum castings. The Mold Holder mounts to the Compaction Pedestal and centers the mold over the post. The Mold Holder keeps the mold, collar and base securely positioned during compaction.

Standards

ASTM D6926, AASHTO T245

Specification

Construction	Lightweight cast aluminum.
Components	Upper and lower sections; tension springs.
Weight	Net 4 lbs. (1.8 kg).

Alternatives
