

**Laboratory Ion meter with pH electrode, swing arm, temp probe. Manual+buffer capsules. 240V 50Hz 1ph**

Code: [525-220/01](#)

Product Group: [General laboratory instrumentation](#)

## Accessories

**Ammonia Ion Selective Electrode (Combination Type)**

Code: [488-001](#)

**Ammonium Ion Selective Electrode (PVC) Combination Type**

Code: [488-021](#)

**Barium Ion Selective Electrode (Combination Type)**

Code: [488-002](#)

## Bromide Ion Selective electrode (Combination Type)

Code: 488-003

---

## Cadmium Ion Selective electrode (Combination Type)

Code: 488-004

---

## Calcium Ion Selective electrode (Combination Type)

Code: 488-005

---

## Chloride Ion Selective electrode (Combination Type)

Code: 488-007

---

## Copper Ion Selective electrode (Combination type)

Code: 488-008

---

## Cyanide Ion Selective electrode (Combination type)

Code: 488-009

---

## Fluoride Ion Selective electrode (Combination type)

Code: 488-010

---

## Iodide Ion Selective electrode

Code: 488-011

---

## Lead Ion Selective electrode (Combination Type)

Code: 488-012

---

## Nitrate Ion Selective Electrode (Combination Type)

Code: 488-013

---

## Potassium Ion Selective electrode

Code: 488-014

---

## Silver Ion Selective electrode (Combination Type)

Code: 488-015

---

## Sodium Ion Selective electrode (Combination Type)

Code: 488-016

---

## Sulphide Ion Selective electrode (Combination Type)

Code: 488-017

---

## Water Hardness Ion Selective electrode (Combination Type)

Code: 488-019
