

## Wet & Dry Bulb Hygrometer

Code: 506-106

Product Group: Humidity measurement

- Easy to read.
- Use outdoors in a screen.

The wet and dry bulb hygrometer is designed for general use and consists of two undivided thermometers mounted on a printed plastic scale. Between the thermometers is a unique slide pointer which allows relative humidity to be easily read. The scale is housed in a plastic case which also holds a reservoir with anti-frost device
