

Laboratory Vane Apparatus (Motorised)

Code: [26-2275/01](#)

Product Group: [Soil Lathes, Soil Trimmers \(Lathes\)](#)

Laboratory Vane Apparatus with 4 Springs and 12.7mm Vane; Motorised

Comes with 38 and 110mm sample holder

The equipment is based on a design by the Transport Research Laboratory, England, and is available in hand or motorised versions. Stress is applied through the 12.7 x 12.7 mm vane by means of any one of four calibrated springs. The motorised version produces a shearing rate of 10° per minute.

Standards Compliance: BS 1377-7 EN DD
ENV1997-2

Accessories

Attachment Clamp for 38 mm and 100 mm Sample Tubes
