

Sheathed Earth Thermometer 300mm

Code: [504-032](#)

Product Group: [Temperature measurement](#)

Temperature recordings are made by lowering the thermometer down a tube with a rope or chain. The thermometer bulb is encased in a wax to allow a slow change of temperature to be recorded and when the instrument is recovered retaining the reading.

The tube is supplied with a solid brass sealing cap.
Measuring range from -10°C to 45°C x 0.5°C.
