

Digital Grain Thermometer

Code: [560-040](#)

Product Group: [Thermometers](#)

The Digital Grain Thermometer is supplied with a long stainless steel needle and is ideally suited for applications where a longer probe is required. ie grain silos.

The stainless steel probe is 1 metre in length with a diameter of 9.5mm. Probe temperature range: -75 to 250 Deg.C.

Specification

Temperature range (Deg.C)	0.1: -99.9 to 299.9
Accuracy: (Deg.C)	±0.4
Resolution (Deg.C)	0.1
Temperature range (Deg.C)	1:300 to 1372
Accuracy (Deg.C)	±0.1%
Resolution (Deg.C)	1
