

Digital Hand Held Anemometer

Code: [460-050](#)

Product Group: [Wind measurement](#)

- Displays maximum gust.
- 4 selectable measuring units.
- Clear LCD display.

The battery operated digital handheld anemometer is particularly suited to site investigations, environmental surveys and meteorological observations. It is lightweight, manufactured from non-corrosive materials and has replaceable cups. At least 2000 readings can be obtained from a single battery, and an error message is shown when the power is low. When the instrument is switched on the wind speed is averaged over a 15 to 18 second period after which the result is shown on the display.

Further Information

Complete with 2 support legs, storage bracket and spare cup.
